

# CELEMI Apples & Oranges®

BUSINESS FINANCE FOR EVERYONE

Manufacturing

“Invite people to think like business owners – so they can base their future decisions on sound business thinking.”

Celemi Apples & Oranges® brings financial statements to life through its simple, profound model of a company. Participants form the incoming management team of A&O Inc. – an established company that is facing some tough challenges. The company is losing market share and there are increasing demands from suppliers and customers. A&O Inc. needs a new, disciplined financial strategy.

*Teams learn how to monitor cash flow, make resource utilization improvements, and measure results in the balance sheet and income statement.*

Participants of all experience levels are able to gain new skills or build on prior experience to:

- Read and interpret financial statements.
- Identify critical elements affecting profitability.
- Analyze financial ratios and key performance indicators, and make priorities accordingly.

Your people will explore the cause-and-effect relationships that govern a company’s financial statements – and develop an intrinsic business sense that will govern their future decisions in every day work.
